Samolot F82 Twin Mustang (klasa 46 EP-GP)(2,0m rozpiętości) ARF - VQ-Models

Dostępność	Aktualnie niedostępny
Kod producenta	VQA122
Kod EAN	22020515
Producent	VQ-Models

Opis produktu

F-82 TWIN MUSTANG (46 size - scale warbird category)

The **North American F-82 Twin Mustang** was the last American piston-engine fighter ordered into production by the United States Air Force. Based on the P-51 Mustang, the F-82 was originally designed as a long-range escort fighter in World War II; however, the war ended well before the first production units were operational.

In the postwar era, Strategic Air Command used the planes as a long-range escort fighter. Radar-equipped F-82s were used extensively by the Air Defense Command as replacements for the Northrop P-61 Black Widow as all-weather day/night interceptors. During the Korean War, Japan-based F-82s were among the first USAF aircraft to operate over Korea. The first three North Korean aircraft destroyed by U.S. forces were shot down by F-82s, the first being a North-Korean Yak-11 downed over Gimpo Airfield by the USAF 1st Fighter Squadron.

Now VQ introduces the F-82 Twin Mustang 46 size EP-GP. This plane comes with 3 piece wing , joine with Aluminium wing joiner , battery hatch in both left and right wing to easy install the battery. Kit come with 2 painted pilots, scale tail wheel, option with E-retracts and struts.

Specifications:

- Wingspan: 2100 mm
